FEATURES

AUTOMATES COMPLIANCE CHECKS

Automatically scans and evaluates designs against local codes and regulations.

GENERATIVE DESIGN

Accesses vetted information from your websites and internal documents.

SPACE OPTIMIZATION

Creates 2D floor plans and architectural drawings that maximize space and meet project requirements while ensuring compatibility with standard CAD software.

3D MODELLING

Rapidly transforms 2D plans into photorealistic 3D renderings, allowing stakeholders to visualize the final outcome.

MEP INTEGRATION

Generate integrated mechanical, engineering, and plumbing schematics that align with industry standards and local regulations.
